

Report from Bergamo concluding event of the trinational school event 2024

From 22 to 26 May 2023, the follow-up event of our trinational student project student project "We in Europe - together for ... racial equality" took place in Bergamo.

The Rotary Club Sarnico e Valle Cavallina hosted the event and welcomed and welcomed us Germans as well as the Italian and French project partners (from Trescore Balneario and Bourg-en-Bresse) with great hospitality. The pupils revised and harmonised the results of their previous work and produced a final product (see attachment). final product, which they presented in English during a formal meeting of the club in small trinational groups in English during a formal meeting of the club. President Flavio Forlani presented them all with a certificate for their successful participation in the project. The participating schools were also honoured as Rotary partner schools. The final evaluation among the pupils resulted in an extremely positive response and shows that the original aim of the project, to bring Europe to life for young people as a (value) community, was achieved in full.
